### **Announcing the all new**

### **Acrylic Adhesive DP804 from 3M**

The global leader in adhesive technology has launched the advanced new two-part clear adhesive for the Scotch-Weld™ EPX™ system.

Developed specifically to provide astounding clarity and strength.

### **You can Reap the rewards because:**

This clear adhesive offers you a unique combination of features creating an opportunity to be a cut above your competitors. It has

- Superb long-lasting clarity
- Fast acting – bonded surfaces can cope with the rigors of manual handling in as little as 4 minutes
- Outstanding strength
- Ease of use – formulated to give a viscosity which allows for simple, hassle-free workability
- Negligible start-up cost
- Excellent resistance to UV
- Very good ageing properties in humid and warm environments.

### **Spot the differences from others:**

DP804 works without damaging the surface of plastics so that:

- Screen printing remains unchanged
- Excess can be wiped away without leaving permanent blemishes
- A super clear finish achieved
- A higher quality product produced.

### **And finally:**

DP804's superior adhesion with plastics and glass surfaces makes it ideal for:

- commercial signage and point of sale manufacturers.
