*See website for more information.

- A powerful 1,100 watt motor for better handling and shorter processing times
- Engineered handle and grip areas for greater operator comfort and reduced vibration
- Spindle locking button for quick easy disc change and greater operator efficiency
- Large buffer head for better handling

A revolution in 3M abrasive performance – now you can combine the superior polishing and buffing properties of 3M Pads with the high performance and durability of a 3M™ Electric Polisher.

Each tool comes ready to use and with an innovative body design that keeps the pad contamination free and an impressive power to weight ratio for improved comfort and performance.

3M™ Electric Polisher

| Model No. | Buffing Pad Dia. Max (mm) | Power (w) | Voltage (v) | RPM | Spindle thread | Weight (kg) |
|-----------|---------------------------|-----------|-------------|--------------|----------------|-------------|
| 64393 | 200 | 1,100 | 240 | 700 to 1,850 | M14 | 1.9 |
| 64394 | 200 | 1,100 | 110 | 700 to 1,850 | M14 | 1.9 |

For maximum results use this tool in combination with the following 3M products:

3M™ Finesse-it™ Natural Buffing Pad

Benefits

- A versatile general use blended wool pad with stiffer central hub for more cutting power
- Twice the usable buffing surface and has an untwisted yarn construction that gives excellent cut and finish

Applications

- Solid surface and paint repair

3M™ Finesse-it™ Finishing Material

Benefits

- Quickly and effectively removes minor scratches
- Produces a brilliant, deep, wet look shine

Applications

- Solid surface and paint repair
